Brand New Book ***** Print on Demand *****.Excerpt from Harmony in Pianoforte-Study a Book for the Individual Student A large part of the effect of music is concerned with harmony: since this is so, it behooves every music-lover, listener as well as player, to cultivate the sense which recognizes the harmonic basis upon which virtually every musical progression is founded. The mental necessities which underlie the study of harmony include: - (1) A knowledge of the properties of chords and of the sounds generally by which they are accompanied.(2) A keen aural grasp of any possible combination of sounds that may be used in music.(3) The power to conceive harmonic progressions unaided by any other medium than that afforded by the trained inward sense.(4) The ability spontaneously to express these combinations and progressions at the keyboard.(5) The facility to express the same combinations and progressions upon paper. The older methods of teaching the subject - now rightly discredited - laid undue emphasis upon (1) and (5). A perception of the importance of (2) prepared the way for a recognition of the claims of (3), and contributed indirectly to the great advance in the expression of harmonic thought upon paper which followed the adoption of sane aural methods. But however thorough may be the method of (5), it is too cumbrous, too lacking in spontaneity to respond immediately to the conceptions of the inward sense. It is for this reason that (4) assumes a role of infinite importance in dealing with what may be termed the synthetic aspect of harmony. It is the tendency of those whose harmonic discipline has been confined to paper work to regard the chord solely from that particular aspect so...
