Little, Brown Book Group. Paperback. Book Condition: new. BRAND NEW, Does Santa Exist?, Eric Kaplan, Metaphysics isn't ordinarily much of a laughing matter. But in the hands of acclaimed comedy writer and scholar Eric Kaplan, a search for the truth about old St. Nick becomes a deeply insightful, laugh-out-loud discussion of the way some things exist but may not really be there. Just like Santa and his reindeer. Even after we outgrow the jolly fellow, the essential paradox persists: There are some things we dearly believe in that are not universally acknowledged as real. In *Does Santa Exist?* Kaplan shows how philosophy giants Bertrand Russell and Ludwig Wittgenstein strove to smooth over this uncomfortable meeting of the real and unreal - and failed. From there he turns to mysticism's attempts to resolve such paradoxes, surveying Buddhism, Taoism, early Christianity, Theosophy and even the philosophers at UC Berkeley under whom he studied. Finally, this brilliant comic writer alights on - surprise! - comedy as the ultimate resolution of the fundamental paradoxes of life, using examples from *The Big Bang Theory*, Monty Python's cheese shop and many other pop-culture sources. Kaplan delves deeper into what all this means, from how our physical brains work to his own personal confrontations with life's biggest questions: If we're all going to die, what's the point of anything? What is a perfect moment? What can you say about God? Or Santa?.
