

Operation Anaconda: Command and Control Through Video-Teleconferences

By Naval War College

Createspace, United States, 2014. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.Before the video-teleconference came into use, operational level commanders often relied on personal observations in order to make decisions. Commanders personally observed their subordinates actions and were able to gain a feel for the battlefield. Advanced information technology has changed the way operational commanders communicate with subordinates. Face-to-face meetings and personal observations have largely been replaced by video-teleconferences (VTC). While in use for many years, Operation Iraqi Freedom (OIF) and Operation Enduring Freedom (OEF) ushered in the first widespread use of the VTC as a Command and Control (C2) system. Many strategic and operational commanders have come to rely heavily on VTCs, almost to the exclusion of other forms of communication. Operation Anaconda conducted in OEF provides a good illustration of a breakdown in communication between two critical components due to an over-reliance on VTCs. VTCs, while offering significant capabilities, have inherent limitations as a command and control (C2) system that must be appreciated by operational commanders in order to ensure success. The over-reliance on VTCs in Operation Anaconda at the expense of personal face-to-face interaction degraded General...
